

# Bank ID for SEB

SUCCESS  
STORY

Turnkey PKI Logical access – BankID for SEB

SEB was founded in 1856 and is now one of Northern Europe's leading financial Groups with more than 21,000 employees in 21 countries. SEB has branch offices in Sweden, Germany, Estonia, Latvia, Lithuania, Russia and Ukraine.

In order to stop the increasing identity fraud on internet and in the society, SEB is taking an active part in developing secure access to various e-services. The modern ID technology is an effective weapon and in collaboration with other banks and mobile operators, SEB has been developing BankID, the leading digital identity in Sweden.

With BankID Swedish citizens can make use of services provided by government, municipality, banks and companies in a convenient and secure way. BankID is used both for identification as well as signing at for instance online banking at home, e-trade, tax declarations.

Oberthur Technologies has been involved at every stage of the project process and supplied a smart card based end-to-end solution including secure print, personalization services, distribution of readers, PIN generation, efficient handling of soft certificates and multi CA possibilities.

Oberthur Technologies respects the environment. The number of printed brochures produced by the company has been significantly reduced to save paper. Printed documents are produced on FSC-certified paper using aqueous inks to reduce environmental impact. Datasheets are available in electronic format only.
